Alana's Work

Every artist strives to express something about life. In my case I symbolically represent the less tangible moments of our inner and outer lives.

Why the bubble? Because everything is just "A Moment in Time".

Juliette, 6:06 PM

You have captured her. This reminds me of when I knew you were to be my mentor and Dissertation Chair. I KNEW IT WAS RIGHT 😊😊

Your experiences have allowed you to see and experience things from all perspectives and you have an inner talent to put that on canvas. Many people can draw but so many can not capture that inner emotional beauty that needs to come out on the canvas that's a rare and beautiful gift.
